## WHAT WE'VE BEEN UP TO

Speedwerx Inc. / Hot Seat Performance, Inc. is known worldwide for producing world-class snowmobile performance products and services. Our following and reputation in the ATV/UTV industry is second-to-none as well. We are your Arctic Cat and Polaris ATV/UTV performance leaders. This year we are proud to announce that we are again the engine and clutching sponsor/supplier for the High Lifter Polaris ATV/UTV mud bog team (who recently took home 2 national titles at the 2010 High Lifter Mud Nationals) and we are in our third year of working with Team Bayou Snorkels. On the Arctic Cat side of things we have riders all across the nation. Team Fines Double Racing uses our products in their competitions and they also help us test parts under the grueling demands of the SCORE Baja Racing Circuit. We also have been building 1100 big bore Thundercat motors as well as several other motor packages for several factory Arctic Cat mud bog racers whom have taken home three National Titles at the worlds biggest Mud Bog event - The High Lifter Mud Nationals!

Since day one we have strived to provide all of our customers with, not only the best products available today, but also the best customer support in the industry. We can assure you that when we release one of our products it will be 100% ready to go. We do not test our products on our customers and you can expect the highest quality parts in your hands every time!

We try to make and manufacture as many of our performance parts as possible right here in the USA. We machine our parts in the USA, we weld our parts in the USA and we plan on keeping it that way as our product line continues to grow. You'll see we have added several new products in our new catalog! Whether it be a new machine or a new product for an older machine, you will find a full line of performance parts for your ATV or UTV. New this year we have compacted our print catalog and expanded our online store to include many more products! Please visit our website for our full product line and more information on current events and breaking news. In addition to our new catalog, we have started to offer performance products for all major brands of ATVs & UTVs in an effort to become the one stop shop for all brands performance products. We have started a new co-op program to aid in the process of getting new units in to our facility for development. In turn this benefits our customers and also helps expand or product line. Visit our website for more information about our co-op program if you are interested!

If there is a product that you are looking for that you do not see, please check our website or give us a call. Our technicians are on hand Monday thru Friday 8am-5pm CST to help out with any questions you may have. The staff here at Speedwerx, Inc. / Hot Seat Performance, Inc. would like to say thank you for being a loyal customer!

Sincerely,  
The staff at Speedwerx, Inc. / Hot Seat Performance, Inc.

## SEASON HIGHLIGHTS

### 2010 HIGH LIFTER MUD NATIONALS

#### OUR SPONSORED RIDERS RESULTS

##### Mud Bog - Bogger Class

2nd Place - Charles Touchet - 2009 Arctic Cat 700 H1

##### Mud Bog - Pro Series A

2nd Place - J.W. Otwell - 2009 Polaris 850 Sportsman XP

##### Mud Bog - Open Class

3rd Place - Adam Schumaker - 2009 Polaris 850 Sportsman XP

##### Mud Bog - RUV Class

1st Place - Blake Mann - 2009 Polaris RZR-S

3rd Place - Brian Haughton - 2009 Polaris RZR-S

##### Mud Bog - Mud Chic

2nd Place - Alicia Gorman - 2009 Polaris Sportsman 850 XP

##### Mudda Cross - Bogger Class

1st Place - Devon Bradley - 2010 Arctic Cat 700 H1

##### Mudda Cross - RUV Class

1st Place - Brian Haughton - 2009 Polaris RZR-S

2nd Place - Maggie Robertson - 2009 Polaris RZR-S

### FINES DOUBLE RACING

*Reid Rutherford, Benn Vernadakis and Jeff Hensen*

#### ACCOMPLISHMENTS

1st Place - 2009 SCORE BAJA 1000

1st Place - 2009 SCORE BAJA 500

1st Place - San Felipe 250

2009 Class 26 (Pro Utility Quad) Season Points Champions

## WE NEED YOUR ATV/UTV!

### SPEEDWERX ANNOUNCES OUR NEW CO-OP PROGRAM

Want free product? Help us help you! To help us further expand our product line we are looking for new models of Arctic Cat, Bombardier, Can-Am, Kawasaki, Kymco, Polaris, Suzuki and Yamaha models. PLEASE CALL if you are interested in our new co-op program.

What we need from you is your machine. What you get in return is a complimentary performance product once the unit goes into production. Again, if you are interested in participating in the new co-op program, please call us asap!

# EXHAUST / SLIP-ONS

## SLIP-ON EXHAUST SYSTEMS

These ATV Slip-On Exhaust Systems are designed to increase power, add acceleration and throttle response, lose weight and give your quad a new deeper throatier sound. We try to keep noise levels to a minimum. Most of our slip-on systems will fall at or below 96 decibels. Carbureted units come with suggested jetting for sea level, summer time riding, if changes are needed. EFI units come with baseline boondocker fuel controller setting if necessary. However, most systems will require no changes to the stock jetting or EFI mapping. All slip-ons are designed to fit with stock OEM bumpers. Some aftermarket bumpers may affect the sound of the machine. If so we do offer different end caps to route the exhaust outlet more downward so it will not echo off of the bumper. Silencers have a custom aluminum shell with steel cores and packing material. These cans are 100% rebuildable with all inner parts being removable. Our steel end caps can also be switched and/or converted over to a custom snorkel outlet set-up very easily.

# HYPERSHIFT CLUTCH KITS

## HYPERSHIFT CLUTCH KITS

Our Hypershift Clutch Kits are one of the most valuable products available when it comes to enhancing the performance of your ATV/UTV. Each kit is designed and rigorously tested by the staff @ Speedwerx to insure that it will increase your machine's acceleration, backshift and all around performance. We offer kits for most applications. We have kits for stock machines, piped or slightly modified machines, stock machines with oversized tires, piped or slightly modified machines with oversized tires and kits for higher elevations as well. Most kits but not all include: primary spring, secondary spring, machined clutch weights and a compound radius helix. All of the proper ingredients to get your machine ahead of the competition and keep it there. Before ordering take a look at the application charts below to make sure you get the proper kit for your application. If you have a complete custom unit built for mudding, drags or whatever, let us know. Our clutching experts can help put a kit together for just about anything.

One of the most popular mods for ATVs today is larger tires. We here at Speedwerx & Hot Seat Performance are aware of this and understand why you want larger tires. But when installing larger tires 9 out of 10 times your machine will be slower and/or less responsive. The way to make up for this drastic loss in power and response is to change your clutching so it matches the tires you're running. So if you're planning on installing larger tires on your machine, DON'T FORGET TO CHANGE YOUR CLUTCHING! If you have any questions please call our tech line.

Speedwerx & Hot Seat Performance have a full line of big wheel clutch kits available for 27" and larger tire sizes. However, some units with 29" or larger tires may require additional changes. If you have 29" or larger tires on your machine, please let us know and we will match your tire size with your other mods and assemble a kit that will put a smile on your face!

# HYPERSHIFT CLUTCH COMPONENTS

## ARCTIC CAT CLUTCH ROLLER WEIGHTS

The primary function of the clutch roller weight is to control the engines operating rpm. We offer 4 different grams of rollers which will allow you to mix and match so you can come up with several different combinations in overall weight if you are tuning or setting up your own clutching. The other difference in our clutch rollers is the diameter. Our rollers are a smaller diameter than the stock units which opens up the primary clutch more and allows the belt to drop down in the primary clutch farther so you start off in a lower gear ratio, thus, giving you better acceleration, better throttle response, more pulling power and less belt slippage which means longer belt life. Our rollers also come as a complete assy. So you just have to drop them into place and go. There is no pressing, swapping or changing out existing parts with your stock ones to make these work.

PART #	WEIGHT	PRICE
ACCRW-15	15 Gram	\$17.10
ACCRW-20	20 Gram	\$17.10
ACCRW-25	25 Gram	\$17.10
ACCRW-30	30 Gram	\$17.10

STOCK WEIGHT CLASSIFICATIONS	
RED	18.5 Gram
GREEN	23.5 Gram
BLUE	21 Gram
WHITE	17-27 Gram (Depends On Model)

ACCRW-20

## INNER WET CLUTCH SPRINGS (ENGAGEMENT SPRINGS)

These springs will allow you to raise your machines engagement rpm for better acceleration and response! These springs will raise the engagement approx. 200-400 RPM.

### APPLICATIONS:

03-10 400 Auto | 00-10 500 Auto | 05-10 650 H1 Auto | 06-08 700 EFI | 06-10 650 Prowler H1 | 08-10 Thundercat 1000  
08-10 Prowler 700 XTZ | 08-10 700 H1 | 09-10 700 Mud Pro | 09-10 Prowler XTZ 1000 | 2010 1000 Mud Pro  
Most Yamaha & Suzuki Models

DESCRIPTION	PART #	ENGAGEMENT RPM	PRICE
42 Lbs. Engagement Springs (5-Pack)	210267	1800 RPM	\$49.95
54 Lbs. Engagement Springs (5-Pack)	955556	2300 RPM	\$49.95

NOTE: Stock primary engagement springs are about 20-25 Lbs. - 1400 RPM!

210267

## ARCTIC CAT SECONDARY HELIXES

The secondary helix helps control upshift and backshift characteristics on your ATV. We offer a variety of angles to meet the needs for all applications. If you have any questions please contact our technical support department.

PART #	ANGLE	PRICE
ACATV54-44-33	54-44-.33	\$120.00
ACATV54-44-46	54-44-.46	\$120.00
ACATV50-44-33	50-44-.33	\$120.00
ACATV50-44-46	50-44-.46	\$120.00

NOTE: More angles coming soon! Custom angles available upon request!

ACATV54-44-46

## ARCTIC CAT & SOME SUZUKI SECONDARY SPRINGS

These secondary springs are designed to help fine tune and adjust the shifting characteristics to meet the needs for custom applications and/or clutch kits. We offer several different rates. These springs will not fit all models. The compression springs are designed for Arctic Cat quads without the new '06 updated clutch or '07 650 H1/Prowler 650 H1 secondary clutch with the removable helix. Our springs do not have tines on them for torsional load either.

### COMPRESSION SECONDARY SPRINGS

These springs fit models with NON-HELIX style secondary clutches.

PART #	COLOR	RATE	PRICE
CCS-350-150-250-200	RED	150-200	\$29.95

# HYPERSHIFT CLUTCH COMPONENTS

## HYPERSHIFT MACHINED CLUTCH WEIGHTS

### ORIGINAL HYPERSHIFT MACHINED WEIGHTS

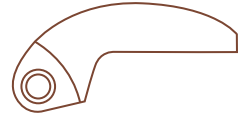

All of our machined weights come heat treated and black oxide coated to prevent wear and corrosion. We offer 3 different profiles of weights. The first being our Hammerhead (heavy tip) weights which provide you with the most aggressive shift. They work great on big torque twin cylinder engines. Then we have our Tapered Tip weights, which are the same profile as the Hammerhead weights but they feature a medium tip for a slightly less aggressive upshift and better backshift. Last but not least we have our Taper Tip 2 weights, which have a similar profile as the Tapered Tip weights but they feature the lightest tip available for the least aggressive upshift and the best backshift.

### ADJUSTABLE AGGRESSIVE PROFILE MACHINED WEIGHTS

This new aggressive profile weight revs quicker at engagement while shifting harder through the mid-range and top end. These weights will act 4 to 5 grams heavier than a standard profile weight. (If you are replacing a 65 gram standard weight, you should order a 60-61 gram aggressive profile weight.) The tip is also adjustable so you can add up to 2.5 grams for fine tuning. The engagement RPM will increase about 200 RPM over the standard profile.

NON-EBS SECONDARY SPRINGS

### POLARIS SECONDARY SPRINGS:

Secondary springs control the shift rate. Fine-tune your secondary clutch with these secondary springs below.

**NOTE: For 2007 700 & 800 Sportsmans:** In 2007 there was a running change on the secondaries that require the use of a different spring. The kits for these two atv's will be supplied with 2 springs. Please refer to charts below to see which spring belongs in your clutch.

If the serial number on your secondary has 1322706 ,1322707,421351, or 421356 it requires the springs from **CHART 1!**

If your clutch has 1322548 ,1322550,420932 or 930709 stamped on it use one of the springs from **CHART 2!**

#### CHART 1

**NEW! TAS-03, TAS03X Sec. Springs - Load Heights @ 2.05" - 1.05"**

# TEAM™ PERFORMANCE SOLUTIONS

## HYPERSHIFT MACHINED CLUTCH WEIGHTS

With the TEAM™ clutch kits you will notice increased throttle response, better-back-shifting and better acceleration. Along with increased performance you can also expect longer belt life and cooler clutch temperatures.

NOTE: Kit contents may vary from the image show.

TEAM SECONDARY HELIX

## POLARIS GEARING KITS

The TEAM™ Mud Bog Gear Kit lets you gear down your Sportsman 500, 700, 800 or your Ranger XP to deliver more torque to your wheels and better use the ratio in your CVT set.

- Full helical gearing for quiet operation
- High quality bearings
- 2008 spec heavy duty reverse chain
- Includes output gear

# POWER COMMANDER

## POWER COMMANDER FUEL CONTROLLERS

The Power Commander is a fuel injection adjustment unit that plugs "inline" with the bike's stock ECU (electronic control unit). The PC uses original equipment style connectors, so no splicing or cutting of the harness is required. Most installations take less than 15 minutes, some as little as 5 minutes.

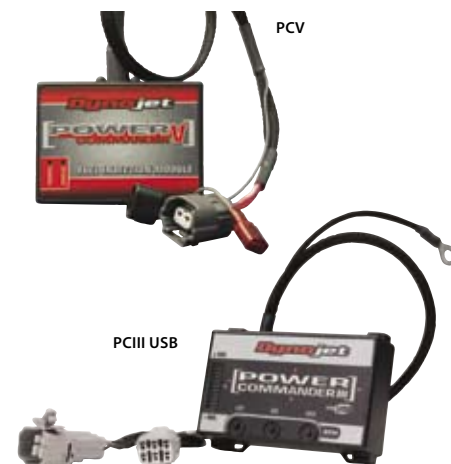

Changes are made to the bike's fuel and, in some cases, ignition curves via the PC's onboard microprocessor. Using this technology we are able to offer a large area of adjustment without making any permanent changes to the bike's ECU. Removing the PC returns the bike to its previous stock condition. Each unit comes complete with software and cable link that allows you to change between different maps or make adjustments to a map file.

### POWER COMMANDER V (PCV):

- Reduced Size (Less than half the size of PCIII)
- 2 Position Map Switching Function Built In (Map switch not included)
- 10 Throttle Position Columns (Up from 9 on the PCIII)
- Analog Input  
(Allows user to use any 0-5 volt sensor and built an adjustment table based on its input such as boost or temperature)
- USB Powered From Computer (9 Volt Adaptor is no longer needed for programming)
- Gear / Speed Input (Allows for map adjustment based on gear and speed)
- Enhanced "Accel Pump" Utility (Increased adjustment and sensitivity ranges)
- -100% / +250% Fuel Change Rate (Allows more adjustment range)

### POWER COMMANDER III USB (PCIII):

- Works With Any Exhaust
- -100% / +100% Fuel Change Rate
- Expandable With: Ignition Module / Color LCD Display / Multi-Function Hub
- Easy Installation - No Cutting Or Splicing!

## AUTO TUNE FOR POWER COMMANDER V

DYNOJET IS PLEASED TO BE ABLE TO BRING YOU THE LATEST IN TUNING ACCESSORIES. WE NOW OFFER A WIDE BAND AUTO TUNE KIT THAT CAN BE USED WITH ANY POWER COMMANDER V.

The Dynojet Auto Tune Kit plugs into the PCV with a single cable. The only other connections needed are a +12 volt and a ground. With the Auto Tune Kit connected the user can specify what air/fuel ratio (how rich or lean) to make each specific RPM and throttle position % combination. This makes it possible to adjust cruise for best fuel economy as well as larger throttle openings for peak power. Dynojet includes base settings for the air/fuel ratios, but they are fully adjustable if need be.

## COLOR LCD DATA VIEWER & LOGGER

- Touch Screen
- Data Logging Capable
- USB Programmable & Upgradeable\*
- Displays All Power Commander Data "REAL-TIME"
- "ON SCREEN" Map Adjustments
- Active Matrix TFT LCD 240 X 320 16 BIT Color Screen
- Allows Storage And Switching Between Multiple Maps
- User Configurable Screen

\*Requires Windows 2000, ME, XP or VISTA

The LCD Display connects to any Power Commander USB via a "quick disconnect" cable. It is designed to remain on the bike and is weather resistant. While connected the unit will display all available data from the Power Commander. When the optional Multi-Function Hub is also installed all of its data is available for viewing as well.

The LCD Display has the ability to log the data being displayed for later analysis and store multiple maps in the unit (both features require optional SD memory card, not included). These maps can be sent to the Power Commander "on the fly". Additionally, maps can be adjusted using the controls on the display.

PART #	DESCRIPTION	PRICE
AT-100	V-Twin Auto Tune Kit - PCV V-Twin Models Only!	\$369.99
AT-200	Universal Auto Tune Kit - PCV Models Only!	\$259.99
LCD-100	Color LCD Unit for use with PC III USB and Wide Band Commander	\$299.99
LCD-200	Color LCD Unit for use with PC V and Wideband 2	\$299.99
76950025	Wide Band Commander Harness For LCD-100 (Required to use Wide Band Commander)	\$49.50

# DYNATEK IGNITIONS

## DYNATEK IGNITION BOXES

### PROGRAMMABLE IGNITION FEATURES

These Dynatek Ignition Boxes offer adjustable advanced curves, adjustable rev limiter, increased spark energy and PC programmability with the optional Curvemaker Program Kit.

### NON-PROGRAMMABLE IGNITION FEATURES

These Dynatek Ignition Boxes feature improved timing curves, higher rev limit, removed reverse rev limit, overrides the belt indicator (for full performance at all times), increased spark energy, improved throttle response, easier starting and easy mounting (plug-in module replacement).

# K&N FILTERS

## K&N AIR FILTERS

K&N Replacement Air Filters are ideal for extended use in dirty and dusty off-road riding and provide clean carburetion even at high altitude. As a rule, no jet changes are required with just a K&N Filter Element, however the spark plug condition should be checked for proper mixture after the first few miles of riding. If the airbox has been modified for increased air flow, the main jet size will need to be increased to provide the proper fuel mixture. Replacement air filters are available for most street bikes, sport bikes, dirt bikes, cruisers, dual sport bikes, touring bikes, ATV's and more!

### HERE ARE SOME INTERESTING FACTS ABOUT K&N AIR FILTERS:

- DESIGNED TO INCREASE ACCELERATION & HORSEPOWER
- WILL NOT VOID US WARRANTY
- WASHABLE AND REUSABLE
- EMISSION LEGAL IN ALL 50 US STATES

## K&N OIL FILTERS

Originally developed for demanding race applications, the K&N Premium Oil Filter is rapidly becoming a favorite among consumers for its durability and easy removal. Many of the K&N Technicians are racers and they insisted that the company offer an oil filter that corrected the "headaches" they experienced over the years changing oil filters. K&N Replacement Oil Filters features a new, high-quality rubber anti-drain back valve, an improved pressure relief valve, a strong inner core and a heavyduty base plate with an improved rolled seal. "Spin-on" oil filters feature a heavy-duty metal can with a 17mm cross drilled nut.

# HIGH LIFTER LIFT KITS

## ATV/UTV LIFT KITS

High Lifter's premier product — and the reason for it all - the ATV Lift Kit. Since the creation of our first lift kit more than 10 years ago, High Lifter has continued to apply quality research and development to a number of new applications. Today, High Lifter offers ATV Lift Kits for most makes and models on the market. The ATV Lift Kit allows your bike to cover more terrain than ever before. Obstacles become mere bumps in the road and your stock-riding friends will be left behind! Gain even more clearance by adding larger, more aggressive tires to your bike — with larger tires comes greater ground clearance. With a lift kit installed the large tires get even more clearance.

## FIND YOUR APPLICATION BELOW!
